

QUEST-IS'27

QUANTUM ENGINEERING SCIENCES &
TECHNOLOGIES FOR INDUSTRY & SERVICE

From Quantum Engineering to Applications for Citizens

2nd International Quantum Engineering Conference & Exhibition

EDF Lab, Paris Saclay, France December 6th – December 10th, 2027

Save the dates! WELCOME TO QUEST IS

In the heart of French deep tech, academic and industrial, following the success of the '25 edition, QUEST-IS 2027, 2nd International Quantum Engineering conference and exhibition shall gather many companies working in the quantum ecosystem from various countries.

It thus addressed technical matters such as quantum computing and algorithms, quantum sensors, quantum communications, crypto and the internet, including enabling technologies, and obviously Quantum Engineering targeting Applications for Citizens.

This multidisciplinary 2nd event shall let attendees from various backgrounds discuss technical challenges of applied quantum technologies and business opportunities with each other.
